No. 1010—Fifth Year | BUENOS AYRES, THURSDAY, JUNE 8, 1865 | Circulation 1,550.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred dounloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of Banking operations.

The establishment is always open from 9 a.m. till 4 p.m.

For Sale.

In the department of Mercedes, about 25 leagues from town, a quarter of a league of prime land, the best in the Province, and famous for its good quality of parture, with permanent water. Apply to Don Silvestre Torrobas, Standard agent. Villa Mercedes. 78..3p w. m12.

Important Notice.

MEDIANEROS & PUESTEROS, Wanted from forty to fifty, with or without sheep to go to Entre Rios. The camp for which they are required is the best in the Province, about 7 leagues distant from the City of Parana. English, Scotch, Irish or German preferred. As the above Estancia is larger than the owner requires, he will sell from a quarter of a league to ten leagues. Parties who may wish to buy had better visit the Estancia as soon as possible as they will thus be enabled to pick out the best lots. Sheep can be bought there at from 10 to 16 silver rials a head. There is an abundance of excellent water and large tracts of wooded land.

For further particulars please apply from five to eight p.m. at the office of WELLS BERHAUS & CO., Piedras 173 where a map of the Estancia may be seen.

For Sheepfarmers in the Province of Santa Fé.

Rams of the Rambouillet breed, crossed with Saxony ewes, lately brought to the province of Santa Fé, from the well-known establishment of Mr. Richard B. Newton, are for sale at the Estancia de la Cañada de los Leones, Partido de San Geronimo de Cronda, 6 leagues from the Paso de Gorondona.

The prices are from 10 silver dollars upwards.

Interesting to Sheep Farmers.

Parties bent on purchasing Rams for their flocks, are hereby advised, that a shipment of 42 Rams of the very best German breeds are expected to reach here from the 15th to the 20th of June.

These animals are of a superior class; having been carefully selected at the request and as a favour to the importer, by Mr. Edward Olivera, now travelling in Germany, out of the most celebrated flocks of Morgente and Woltersdorff, to which he gave the preference, from the well-known fact of their descendence from that of Hohs'itz, which still preserves the purity of the original Spanish blood.

The well-known knowledge of Mr. E. Olivera, in sheep-breeding, acquired both here and abroad, may itself be considered a guarantee of their fine quality and suitableness for this country.

The lot will be sold at public auction by Mariano Billinghurst. Timely notice will be given thereof, so as to enable sheep-farmers of Entre Rios, Santa Fé, and Banda Oriental, to be present on the day of the sale. This is an opportunity to acquire first-class Rams, as seldom, if ever, such a lot of superior class animals have, or will be, imported into this country.

Notice.

Office of the Provisional Directory of the Central Argentine Railway.

The undersigned, President of the Provisional Directory of the Central Argentine Railway, in the Republic, in virtue of the power vested in him, by the Statutes which were officially approved by the National Government, has the honor to inform all those who have taken shares in this country that, the share having already been paid in England (making with the deposit, six pounds ten shillings paid up) he has fixed the date of the thirtieth (30th) day of June next for the payment in this Republic of the said second call, the amount of which, say two pounds, or nine hard dollars and eighty cents, upon each share will be payable by the shareholders of the province of Buenos Ayres at the office of the Directory, No. 87, Calle de la Reconquista, and by those of the other Provinces of the Republic, at such offices as may be designated by the respective committees or parties duly authorized.

The following is the tenor of the 4th article of the Statutes.

"The Directory may, from time to time, make such calls upon the Members in respect of all moneys unpaid on their shares, as they think fit, provided that twenty one day's notice at least is given of each call, and that no call shall exceed £2 per share, or be made at an interval of less than three calendar months after the last preceding call shall have been made, and each Member shall be liable to pay the amount of call to be made to the persons, and at the times and places appointed by the Directors."

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No chronometer or watch so fitted will more perfectly or carefully adjusted mechanism."—Times, June 21 1862.

"A triumph of ingenuity."—Telegraph March 17 1862.

"A more splendid and exquisitely finished piece of mechanism we have not ever seen."—Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit as success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around, the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of, horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

THURSDAY, JUNE 8, 1865.

THE WAR IN THE NORTH.

GREAT NEWS FROM ESQUINA.

CATTLE BUSINESS ACTIVE.

THE PARAGUAYANS IN GOYA.

Esquina June 3, 1865.

In the afternoon of the 29th May, the Argentine war steamer 'Pampero,' arrived here from Corrientes bound to Buenos Ayres, short of coals and provisions: she remained here till the morning of the 31st wooding with Ñandubay posts and procuring stores: she had on board 150 or more invalids, and a small detachment of soldiers. Those on the sick list are for the most part suffering from severe gun-shot wounds or bayonet thrusts. On the passage from Corrientes 22 died; during the 'Pampero's' stay here five more went to their account: they were interred sea fashion. Every attention that could be paid to the unfortunates has been done; they have two surgeons in attendance: four fat oxen and all the poultry that could be collected, as well as some fruit, was sent on board. Early in the morning of the 30th, the 'Esmeralda' passed upwards with troops; I was sorry [excuse my eccentricity] to see "the flag that has braved the battle and the breeze for a thousand years" flying from her staff, inasmuch as there is a notice in the 'Standard,' signed Frank Parish, H. B. M.'s Consul, warning masters of British merchant vessels "that they are not to carry munitions of war of any description to any one of the belligerents, on the understanding that if they do so, they may render themselves liable to the penalties incident to an infringement of neutrality." As the admonition refers only to munitions of war, I presume the Captain thought he was doing no more than what was right in transporting soldiers. In taking note of this I do not intend any slur upon Mr. Parish who, as well as his father, have respected names. Emigrants from the Northern Departments continue to arrive, among others our army contractor who abandoned his post without leave or license. Those that have money spend it freely. It is high time we should be attended to—half of our population are reduced to begging: if things are not looked after very soon, the other half will become so too. It is supposed that 8,000 head of cattle per diem are being ferried over the Paraná on account of the Paraguay Government; in this number are not included many hundreds the poorer thieves are daily swimming over to their own territory upon private account, and no one there to circumvent their work of rapine. What is being done by the Government is done in a masterlike manner; large floats are filled with cattle and towed over by steamboats to the Paraguay shore of the Paraná. As for the poor thieves who all can swim like fishes, they drive the cattle to the water's edge and force the beasts into the river; as soon as the animals have lost their foothold, the conductors plunge into the stream, keeping company with the drove until they gain the opposite coast. It must be kept in mind where this wholesale plundering business is being done, the Paraná, "[Danube or Volga by its side were only rills]." is from 1,200 to 1,500 yards broad, has a downward current of 2½ miles per hour, and a depth of three fathoms. Formidable as this may appear, still it is no barrier to prevent naked cattle stealers from passing and re-passing. We do not put in the account the number of beeves the Paraguayan or Correntine armies consume daily: they may be set down at 1,500.

As all police regulations have been done away with here, some of the neighbours take the advantage of it and are skinning each others' cows for the sake of the hide only, leaving the carcase and tallow to be devoured by hungry dogs. The Genoese pulperos who control the commerce of the place are not very particular in making enquiries of those who offer hides for sale, what marks they may have, or how the sellers came by them: the merchant's aim is to buy heavy hides cheap; one thing certain is, gauchos who have not a single cow yet they have hides to sell. Before the war began, hides were prohibited from being sold after dusk, now they are bought and sold at any hour, while self-preservation dwells on every tongue, self-aggrandizement is not forgotten. We have in our port the Esmeralda, Pavon, and Hercules steamers and eleven transports from Corrientes, the Dutch brig Herman Albert, the Russian lugger Emmy and Dutch schooner brig Bureau Veritas, the last three are from the Rincon de Soto loaded with beef, the two former-named are bound direct to Cork, the latter to Rio. As the custom-house officials of Goya have all decamped, this being the nearest port of entry they were obliged to call here for their clearances. The Dutchmen as well as the Scandinavian pronounced this to be strange country, forasmuch as they had to come 25 leagues in quest of custom officials, when in other ports the reverse of this was the case. During their stay at the Rincon the place had been occupied by the contending parties by whom they were treated with politeness. The Danish brig Margarita is still here waiting for a wind bound upwards; as for war news, what you may deem authentic is General Paunero is here with his division just arrived from Corrientes. General Urquiza is at the pass of Santillan, 18 leagues hence in a north-easterly direction on this side of the River Corrientes; the Brazilians are blockading Tres Bocas, the Paraguayans are carrying on the cattle trade with their wonted activity, they are in force at the capital as well as at Goya. Yesterday they were a short distance this side of Goya, coming this way, about 20 leagues distant from us, but have since receded Nothing is known of their numbers more than "una fuerte columna compuesta de las tres armes." You may set them down from 10,000 to 15,000, nor can any one tell if they have taken charge of Goya or not. Lagraña with the Correntino army is at Maruchos, 12 leagues from Goya east inland. Yesterday a Brazilian steamer arrived bound down, she brought Argentine troops who were landed here. Gen. Paunero's division, composed of 2,500 men, is encamped at a little distance from our village, they come well provided, and have a more soldier-like appearance than any ever seen in these parts. They have good clothing, camp equipage, surgeons, money-chest, and everything else than can make a soldier comfortable. A rigid discipline is observed. All are well armed, their rifles or muskets are kept shining bright, and would vie with those of the soldiers of any country. Not an old man (I must except Gen. Paunero and Col. Chenaut) or a boy is seen in the ranks. The officers, who have a manly bearing, strive to give every attention to the men's comfort. Although they have been cooped for many days in the transports they have only eight men upon the sick list. The first thing done upon arrival was to care for them. Gen. Paunero's luggage was by his order left for the last cart to bring after all others had been served. The steamer Buenos Ayres is in sight and a transport with troops.

SINBAD.

LATEST FROM ENTRE-RIOS.

URQUIZA ON THE FRONTIER.

Frontier-line of Corrientes, May 31st.

"The army had great rejoicings yesterday for the victory of Gen. Paunero at Corrientes. In spite of that success the Paraguayans under Robles still advance down the Parana and crossed the Santa Lucia on the 28th. The Entre-Rian army now numbers 8,000 men. President Mitre is hourly expected at Concordia with 8,000 infantry and artillery; and General Osorio will shortly join with 6,000 Brazilians, horse and foot. Besides this grand allied army of 22,000 men, General Canavarro is moving from Rio Grande with 10,000 Brazilians on the enemy's flank. Col. Navarro's division is one of the finest in our army".

We extract the above from the 'Uruguay' 3rd inst., but find it strangely contradicted in the 'Republicano' of Concordia of the 4th., which states that (so far from Urquiza having reached the frontier on the 31st ult.) the Entre-Rian army under the Captain General set out on its march for the frontier on the 3rd of June.

The Government of Entre-Rios has established a semi-weekly mail to the army head quarters, leaving every Sunday and Thursday at 6 p.m. The Concordia infantry battalion is under drill every day, and a military hospital has been fitted up in that town for the reception of the wounded of Urquiza's army, under charge of Sor Perez, the National Govgeament having contributed 500 silver dollars and 50 beds, and the ladies promising a large supply of bandages, &c.

On the evening of the 1st and 2nd inst. the Nat. Guard infantry headed by their new band of music serenaded their officers through the town. It seems incorrect that Sor Gadea went as aide-de-camp to Gen. Hornos having taken orders under Lopez Jordan.

MAILS FROM THE PROVINCES.

ROSARIO.

The mortality of Rosario last month amounted to 55 infants and adults, of whom only 8 had attained the age of 50 years, and only one of the adults was a native of the city. From the number of deaths we may estimate the population of Rosario as close on 20,000 souls.

The 'Cosmopolita' states that the new Joint-stock Diligence Co. projected by Messrs. Sauze and Mansilla will commence operations on the 1st of August, all the shares being already taken up, and nothing wanting but the approval of Congress for the statutes of the Co. The numerous complaints hitherto made against the Iniciadores, are ascribed rather to the neglect of Government in the matter of post-horses than to M. Sauze.

The wounded soldiers arrived from Corrientes caused a damper on the townfolk, as they complained bitterly of the rashness of the expedition and the want of boats and appliances to land the men properly.

Respecting the Rio Vermejo navigation, it is feared much delay must result, from the Paraguayans holding the mouth of the river, which is above Humayta. The Argentine Government has received proposals for the establishment of an American colony on its banks.

The experiment of Angora goats turns out favorably, Sor. Ledesma's flock progressing favorably, and Major Munroe of Montevideo has purchased three fine animals for £200 sterling which he has sent up to his estancia on the Carcarañá.

On Saturday the tug-boat Iron-King arrived with three vessels laden with railway materials, two English and one Dutch barque; there are now three cargoes of sleepers, weighing some 800 tons, in port. There is no fear of coming short, as the contractors in England are delivering 40 tons weekly, and vessels may be expected every week arriving in Rosario. Mr. Wheelwright promises to open the line to Frayle Muerto in June 1866; this will be half way to Cordoba.

SAN JUAN.

Dates to the 16th ult.: the 'Zonda' publishes the officers named to march with the war-contingent. There was a popular manifestation in favor of President Mitre's Government.

MENDOZA.

Dates to the 20th ult. The new Bank is about to be started at once, with a capital of 30 to 100 thousand silver dollars, the Directory being composed of Messrs. Funes, Manricio, Villanueva, Huidobro, Nicolas Villanueva and Cerretti. The officers of the 1st batt. and artillery made an address to General Segura, who is, however, too sick to take arms against Paraguay.

SAN LUIS.

Dates to the 20th ult. The local newspaper 'Porvenir' has died and is succeeded by the 'Boletin Official.' A new town called Villa Luxan has been founded on the Rio Seco, 40 leagues north of the capital, and lots of land have been given out planting corn, cotton, vines, figs, &c. On the 15th a deputation of 60 Indians arrived at Villa Mercedes, including 13 children of caciques, the mother, brother and sisters of Baigorrea, and a 'lenguaraz' or interpreter, to offer their submission to Goverment and arrange the treaty with General Emilio Mitre at Rio Cuarto.

IMPORTANT FROM PARANA.

NEWS OF THE ARMY.

We have the 'Litoral' to the 3rd inst. President Mitre is hourly expected at Parana with troops from Buenos Ayres. The Pampero passed down on Tuesday night with the wounded for Buenos Ayres, reporting that the Brazilian fleet had gone up to Tres Bocas, and the whole Paraguay army fled from Bella Vista to Itapua: this was an absurd invention. The Paraguayan commander left behind by Robles at Bella Vista, was Colonel Aguiar incorrectly called General, lately aide-de-camp to Pres. Lopez. It is said that all the aid-de-camps of Col. Rivas were killed. The Paraguayans ask whether it is farther to B. Ayres than to Santa Fe, and whether they can reach the former city in 60 days, as Lopez has promised them in the sack of Buenos Ayres all the gold for them, reserving only the silver for himself. General Robles is nick-named Caray-Guazú or the Grand Signor.

The 'Litoral' estimates the loss of the Argentines at 120, and that of the Paraguayans at only 70. The garrison of Corrientes was composed of two battalions, each 820 men and 3 officers. It is said the Paraguayan reserve army at Humaytá consists of 35,000 infantry.

The ladies of Paraná are making bandages for the army-hospitals. Colonel Garmendia has been called into active service. D. Demetrio Icart arrived from Asuncion, having left that city on the 21st ult.

ANOTHER MURDER IN CORDOBA.

We have received the 'Eco' to May 28th. Things are gething worse in Cordoba, and every mail brings us news of a fresh murder. On the evening of the 25th a poor man named Delfidio Gonzalez on leaving a coffe-house was assailed by Captain Cordoba and a soldier who ran him through with a sword-cane after they had knocked down, and left the end of the weapon sticking in his body. The mother applied to the authorities, but the soldier had been permitted to escape, and we suppose the Captain is unamenable.

EDITOR'S TABLE.

Yesterday the great event of the day was the blessing of the flags at Moron; not being invited we did not attend. In Barracas an equally interesting ceremony was to have taken place at Mr. Marshall's ship-yard—the launching of another steamer. Owing to the frightful state of the roads, and the rather threatening weather, the attendance was not so large as usual,

The great question of the day is when will President Mitre march? It is generally believed that he will leave some day next week, as he has notified all the officers to be ready on Saturday without fail; his presence on the battle field will no doubt be worth to the allies several thousand men, but his presence here in Buenos Ayres seems to us almost as essential—the army has to be yet organised, the forces concentrated, and the necessary orders given. Minister Gelly may be a very good man, but he is a poor substitute for the President. This hurried call upon the President to march is only tending to precipitate events which should be allowed to take their proper course. The Paraguayan army should not be despised, their artillery is equal in point of guns to any in South America, and a pitched battle is altogether too serious an affair to be risked without every preparation. If the Argentine and Brazilian forces act in concert, there cannot be the slightest doubt as to the issue—but if on the contrary five thousand men here, eight thousand there, and more elsewhere keep rushing about attacking a close compact enemy, there is great room for apprehension. We are in no humor to censure Paunero, for we firmly believed the man thought as everyone thought that the Paraguayans would run away like the Chacho's troops at the first fire, but if he had never gone beyond Esquina and had staid there concentrating his forces, he would unquestionably have acted a wiser part. People should bear in mind that the farther Paraguagans march from home the greater risk for them—far better to lick the Paraguayans at Esquina than at Corrientes, retreat then is out of the question.

Our colleague the 'Tribuna,' has of late adopted the English style of large headings to great news We regard it as an improvement; it makes the 'Tribuna' look livelier and better, but the native papers are altogether too big: if the 'Tribuna' would cut down its subscription, and the size of its paper one-half, it would have five times as many subscribers. The 'Freeman's Journal' of Dublin, a daily paper, a little larger than the 'Standard,' has forty thousand subscribers, while the 'Tribuna,' which is nearly twice its size, has only three thousand five hundred, and yet the 'Tribuna' is the paper of the largest circulation in the River Plate.

At an Estancia in Corrientes, on the banks of the Yatel, some few industrious cotton-planters are gathering in cotton. We tremble lest the Paraguayans, who are very close at hand, hear about it and destroy the plantation. Over one hundred arrobes are already gathered and ready to be shipped to Buenos Ayres.

We call attention to another letter from our old correspondent in Esquina. His letter may be relied on: it furnishes many interesting details which none of our colleagues have published.

A gentleman arrived from Rosario informs us that Mrs. Lagrana, the wife of Governor Lagrana, is at present stopping in Rosario. Ex-Gov. Pampin arrived here in the Esmeralda.

Sr. Oroño, Governor of Santa Fe, is preparing to leave Rosario for the capital of his province. The Santa Fé contingent is ready to march, having received their uniform and arms. The town of Rosario is very gay, people are expecting President Mitre there.

The new ponton is at last in her place; we understand she was formerly known as the Emma; her bottom is sound and there is no fear of her going down.

We notice that Captain José Maria Manzano has been named commander of the Argentine war-steamer Pampero. What has become of Sr. Carreras?

From Zarate we have the most satisfactory intelligence respecting the troops stationed there; the men are all well clothed and armed. José M. Serrano has been named Sergeant-major. The troops are only waiting the steamer to march for Corrientes.

Mr. Hopkins's scheme for the canalization of the Capitan, which every one suppose was dead, we perceive has been resuscitated in Congress. A petition, asking for an extension of time for 6 months, has been referred to a committee to report on. Some opposition was given to Sr. Rams' concession for the Salado navigation, but it was ultimately passed by 19 to 1.

On Tuesday night a most daring robbery was perpetrated in an English house, in calle Piedras. The burglars entered by means of an old ladder, and walked off with about five thousand dols. worth of clothes. The same night, at the house next but one, to the one in question, we hear also there was a burglary committed, and the proprietor robbed of articles of even greater value. The Serenos were nowhere, as a matter of course.

A passenger arrived from Corrientes states that previous to the attack of Paunero the Paraguayans were fitting up a house in Corrientes for Lopez. The most costly furniture had arrived from Asuncion; and if Napoleon himself was about to arrive, preparations could not be on a grander scale.

Several vessels with railway materials had arrived at Rosario, having been towed up by the Iron King. The works of the Argentine Central are steadily progressing, and the contractors have now in Rosario an immense supply of materials.

Dr. Alsina and the members of the Provincial Government would do well to study the letters on the Rural Code which we are publishing. They are written by a practical sheepfarmer, and deserve the greatest attention, as our correspondent 'Dick,' has many years' experience in the camp. His opinions are worth more than those of the greatest lawyer in town.

The Pavon arrived yesterday. She brought some dozen of letters and families fleeing from the war. Her news has been anticipated by the Esmeralda.

LATEST FROM MONTEVIDEO.

THE CRISIS OVER.

A NEW SORT OF RAM.

The conduct of our Foreign Minister has plunged this place into what is technically termed a *crisis*. Unsophisticated parties who walk about the streets, and look into the shop windows, judge the place as they find it, and see nothing unusual, but parties gifted with the keen penetration of 'Zozimus,' see through the inmost closet of the Government-house. Yesterday the matter was no longer a secret. Montevideo was in a crisis—the papers were full of it—the 'quidnuncs' talked of nothing else—people forgot all about Paunero and Lopez—the danger was imminent—the crisis was at its height—the Government pulse beat 120. To describe to you this city under such circumstances, is a task altogether too much for me.

I have seen Montevideo in a state of siege.

I have beheld Montevideo in revolution.

I have even witnessed the place in peace—but

Montevideo in a crisis beats them all. The Governor shuts himself up in his house—the Ministers walk through the streets with their hats over their eyes—the Government clerks no longer walk with a swagger—so infectious is the crisis fever, that even the English clerks are affected, and they pass each other in the street with a careless nod or an unmeaning wink. Sprungs, your agent, which apropos is now eclipsing Cromwell's for headquarters, was deserted. The whole city seemed as it were suffering from a political asphyxiation; but the danger is now over, the Castro crisis is past, and Montevideo is safe: to-day we are all in good humor, and hungry for news. Nothing surprises me more than how you people in Buenos Ayres seem to be totally oblivious of what is going on. The Brazilian ram, steam-ram, iron ram, plated ram, which came from Rio, now more than a month, to knock down Humaita and Lopez, is running with the Brazilian mails between this city and Buenos Ayres. How is it that you have said nothing about this in the 'Standard?' A Brazilian steam-ram running between Montevideo and Buenos Ayres, with despatches and newspapers, why the next thing I expect to hear is, that she will take passengers. Was ever such a novel system of warfare known or heard of before? The Brazilian squadron up at the Tres Bocas doing nothing but wasting money and coal, whilst the ram, turned into a sort of mail steamer, instead of going right up to the very fortress of Humaita, stays down here running up and down between the two cities. No wonder that Paraguay is carrying everything before her. Probably the next news will be that all the gunboats are sunk or captured by a lot of Paraguayan fishing boats, built by some Guaicuru in the Gran Chaco. You will oblige many of your subscribers here by asking Baron Tamandaré what he means. People talk very hard about him here, and some even go so far as to say that he is going back to Rio before he goes up the Parana. Can this be possible?

General Flores is making great preparations for his Paraguayan campaign. I have a scheme on hand which I hope to put through before he departs. For the last couple of months I have made this city my study, and I flatter myself I have at last discovered what is wanted to drive the place ahead. I have no objection to publish it in the 'Standard,' as I feel certain the English public will agree with me. We have a theatre, we will shortly have a Bolsa; we have a bull-ring. What we now want is a Congress, not that I mean to class the House of Legislature with any of the above-named places of amusement, but that the debates in Congress are generally entertaining, and afford legitimate food for public discussion. A Government such as we have here can only be regarded as a shift: to consolidate power, the aid, comfort, and assistance of Congress is essential. My scheme is to get up a Congress at once.

An American friend informs me that some small craft have left this port, cleared for up the river. They are laden with comestibles, and my mind is made up they are gone 'to run the blockade.' It appears that there is some canal which runs into the Chaco below Corrientes, and out into the Paraguay, above Humaita. If this expedition pays, several hundreds will follow.

The Brazilian Minister has had several 'tete-a-tetes' with Governor Flores. They talked about the shocking state of the weather and the great mortality in town. The Minister asked the Governor when he intended to march? Whereupon his Excellency pulled out his watch, looked at it attentively, and replied, 'precisely five minutes before my grand and good friend in Buenos Ayres.' Another vessel with troops has arrived from Brazil: they did not land here, but went right on to the Uruguay. I am told they are all policemen, but no one has seen them. The Brazilian Admiral leaves here to-day. Nobody knows for where. Some say to Buenos Ayres, and others to Rio. There seems to be some truth in the rumor that he will go back to Rio before he goes up to Humaytá.

Our contingent, if Bustamante's law suit was only finished, is all ready, uniforms, arms, ammunition, &c., are all supplied. I strolled through the barracks yesterday, and can testify to the cleanliness of the place and soldier-like appearance of the men. Some regiments of cavalry belonging to the Oriental contingent are already on their march. They will not come to town, but go up to Concordia.

I send you this by the new Imperial mail ram steamer Tacuare. It is a pleasing coincidence to have an iron ram waiting to take our letters. If the captain only knew that my letter was on board, I verily believe he would put back with fright.

Yours,

ZOZIMUS.

INTERESTING FROM CONCORDIA.

BRAZILIANS MOVING.

I was at Paysandu last week for a few days. The steamer 'Uruguay,' arrived here, having in tow a lighter supposed to be loaded with ammunition: she came up to Concordia, and on Thursday, returned down as far as Mujico's saladero. Since then she has been employed along with one of the Brazilian steamers in taking up troops as far as a place called Coralitos, where they are landing the troops on the Banda Otiental side, and at one of the Estancias of Mr. R. Williams.

The little steamer Lilli passed, towing a large hulk, belonging to Artiaga; and I believe this hulk is to help to take the troops up to their destination. I understand that all the Brazilians that were encamped at Mujicos saladero will leave it by to-morrow night. They are only going to leave a guard of about 100 men to take care of the sick, of which I believe they have a good many; they had also a number of deaths from small-pox and diarrhœa.

I spoke to several Englishmen from Moron that come to the Brazilian encampment to look for some horses that have been robbed from them, but, unfortunately, all the horses had marched the day previous.

I have been told that part of Flores' contingent passed close to Paysandú three days ago en route for the seat of war.

I also have been assured that General Osorio, of the Brazilian army, was expecting Mitre here on a visit.

One of the owners of the saladero is in prison for debt, and I understand goes down in this steamer to Montevideo to be tried for failures.

Do not forget to send the 'Standard' as regular as possible, directed to the Correo Concordia. I saw in prison in Paysandú an Englishman. I could not ascertain his name; he is in prison I believe for having shot a 'gaucho' robber right through the eye.

Yours,

AN ENGLISHMAN.

HEAD-QUARTERS OF GENERAL CACERES.

Maruchas, near Goya,
June 2nd. 1865.

For the last 12 days the Paraguayans under Robles keep advancing and receding on the right bank of the river Santa Lucia, near the town of that name. They cross and re-cross the river every day. They have not made their appearance in the neighborhoods of Saladas, San Roque or the Tranquera de Loreto. The Correntino militia cavalry under Caceres has, therefore, perfect liberty of action, and is being properly organized, while at the same time giving necessary rest to the horses, although we keep the enemy constantly in sight.

It is a great advantage that the Paraguayans are so slow in their movements, which permits our reinforcements to march from Entre-Rios in our support. General Paunero is at Esquina with the men under his command. Our militias here are much in want of clothing and other necessaries which cannot be procured in a hurry, but this does not prevent their effectiveness in field.

The rumor is current that General Urquiza has already reached the frontier line of Mocoretá, and encamped the Entre-Rian army on the Paraiso estancia, which is the property of General Caceres.

On the 28th, Caceres encamped at Laguna Nacuté, and sent couriers to Urquiza to advise him of the capture of Corrientes by Paunero. Governor Lagraña set out for Esquina, and expected to join Paunero on the 3rd inst. Sor, Pampin, ex-governor and brother-in-law to Lagraña, sailed for Buenos Ayres on board the Esmeralda. It is rumored that Corioiano Marquez the murderer of Camilo Rodriguez, who escaped from the prison of Buenos Ayres, was fighting in the Paraguayan ranks in the attack on Corrientes, and afterwards cleared out for parts unknown.

LETTER FROM RINCON DE CEBALLOS.

May 28th, 1865.

On the 25th we took Corrientes after three hours' hard fighting. The Legion Militar, almost all Argentines (?) fought like Frenchmen, and a terrible hand-to-hand encounter strewed the ground with 1100 killed and wounded, of whom 800 belonged to the enemy and 300 to us. Our troops landed in eleven boats, and the first man who leaped ashore was Col. Charlone. The hottiest work was at the barrack which the Paraguayans defended like heroes, but at last they gave way under the fire from the Brazilian gunboats and the bayonet-charge of our men. I never before saw such fighting, that of the infantry at Cepeda was nothing to it. Over 20 of our officers were killed or wounded in the *melée*.

On the evening of the 26th we were forced to evacuate Corrientes, for want of supplies, leaving the Paraguayan wounded in the churches and private houses. We passed that night on board the steamers, and started next morning (27th) for this place, arriving here to-day at 1 p.m. It is thought the Brazilian fleet will go up to Tres Bocas, and that Hornos and Caceres have already united their forces.

Our position here is magnificent and highly strategic, as the enemy cannot touch us. If General Urquiza come up quickly we are all right. It seems the enemy has again taken possession of Corrientes: that city is like a cemetery (?) every house and rancho echoing with the groans of the wounded. The enemy's garrison only comprised two battalions, the 16th and 24th infantry, and these were commanded during the fight by one Captain Martinez.

The Brazilians profess the greatest admiration for the valor of our men and say they are the finest soldiers in the world. Ex-minister Camelino and Dr. Benites lent their medical aid after the battle.

THE RURAL CODE.

III. LETTER.

Article 173, says—"Two years after the publication of the Code, a zone or space of one league wide all round the Chacra grounds (ejidos) of each town situated more than ten leagues from the city, will be destined for sheep-walks."

Art. 174—"The estancia grounds will be situated outside the above-mentioned zone."

Article 176—"Within the same term of two years cattle and mares ('ganado mayor') must be removed from the above-mentioned zones, under penalty of discretional fines to be imposed by the Municipalities, or the Justices of the Peace."

These Articles, if carried, will cause a great revolution in the camp, and will seriously inconvenience some thousands of Estancieros; no doubt it is very laudable to foment tillage by every legal means, and this section of the Code has evidently that object, but to sacrifice an Estanciero for the benefit of a Chacarero is not, in my opinion, sound policy; if cattle trespass, fine the owner—the Code, in the sixth section of the second Chapter, provides for this contingency—but to oblige an Estanciero to remove his cattle from his own Estancia is, indeed, very hard, and apparently in contradiction with Article 164 of the Provisional Constitution and Art. 14 of the N. Constitution. Such regulations would answer very well in new partidos bordering on the frontiers, or in Bahia, Patagones, &c. where land is almost exclusively Government property; those purchasing these lands would be aware of having to comply with this section of the Code, and of course would purchase within the zone allotted for sheep-walks i sheep-farming was their object, and outside said zone if they intended to breed cattle only; even in new partidos this law would be ineffectual in many places, owing to the nature or quality of the land, for there would be many plots within the zone, in many partidos, wholly unfit for the breeding of the sheep. Retro-active laws should be avoided as much as possible unless downright necessity calls for them, the Constitution of the province prohibits retrospective law (Art. 156) and this part of the Code is, to all intents and purposes, one, and one that will seriously injure many Estancieros.

This closes my observations on the second chapter, which treats, principally, of tillage; the first thing that causes me to pause in the third chapter is, Article 259, which says—"When a peon, that has been at least two months in his master's employment, falls sick, his salary is to be continued for twenty days, after which the salary ceases but the expense of medical attendance, &c., for fifteen days must be defrayed by the employer." If this Article becomes law in its present wording, I fear a great many peons will be fifteen days out of every month sick, they will of course endeavour to keep themselves as sound as an apple for the first two months with every new master. Medical gentlemen in the camp must keep an extra stud of horses to be able to attend all the calls they will get to see patients suffering from *Code Malady*; this disease will present a variety of symptoms, but experience will prove it to be a disease of small mortality. If the faculty would unanimously prescribe the "Phœnix Park Royal Hospital low diet," without relaxing the patient's ordinary exercise, the Code Malady would be erased from the list of diseases.

Would it not be possible to introduce an Article into this part of the Code making contracts drawn in Europe with peons, servants, &c., valid here? Under the existing law you cannot legally recover money advanced in Europe to intending emigrants although that person may bind himself to repay you with his services for a stated time; if such a law was in existence immigrants would annually treble their present number, for it would naturally become a commercial enterprise, and it would be a great benefit to poor people in Europe who would willingly come if they had the means to pay their passage. The Immigration Committee pointed out something similar to this last year, and called on the Prime Minister to solicit such a law from Congress. Buenos Ayres is ahead of the other provinces in everything relating to the material interests of the country, why not take the lead in this question also? Buenos Ayres may be justly proud of laying claim to the only Rural Code in all Spanish America, but it will be a greater boast to say: this is the New York of Spanish America.

Patacons opened firm and closed flat; in the liquidation room there were buyers at 29 18, and sellers at 29 20. There is a very nervous feeling in the specie market, and speculators look forward to next week with the greatest anxiety, as on the 15th the law enforcing specie payment in Montevideo comes into operation. Gold is so scarce in the market that it is seriously affecting exchange operations for the packet; bills are offered for large and small sums, but very few takers can be found. Paper money, notwithstanding the very limited amount of produce on sale, is scarce and difficult to obtain under 1½ to 2 per cent a month. It is supposed that the resumption of specie payments by the banks in Montevideo will cause an immediate decline in specie here; many parties are speculating heavily for a fall, as it is known that large sums in gold have been shipped to Montevideo and must return ere long.

Sales of specie on long dates were very difficult to make, and those who would wish to secure for August or September hesitate to do so, anticipating in any case a serious decline at the commencement of the wool season. Exchange was freely done at 50d., payable the 17th inst.: we understand about £10,000 has been passed. National Bonds offered at 37, but with no anxiety to realize, notwithstanding the present high rate of interest.

Physician.

The undersigned, Doctor in Medicine, Surgery, and Obstetricy, approved by the Faculty of Buenos Ayres, and favorably known by many years' practice, begs to advise the public of his return from Europe. He has spent some years in visiting the principal Hospitals and Universities of Europe, as well as studying all the important improvements that medical science has lately made in all its different branches. In a special manner he has pursued the wonderful results of the new treatment of pulmonary complaints, maladies of the larynx and diseases of the eye, diseases which most frequently occur in this country. He therefore hopes that his experience, not only in the above-mentioned branches, but also in all the different ramifications of science, may enable him to render good service to all who may consult him.

CAMILO GIOVANELLI.

Bishop's Druggist, in front of San Francisco Church
The undersigned certify that the Manteca de Grasa recently prepared in this country is superior to all we have used up to the present and as free from any mixture, being on account of its excellent quality preferable to hog's lard and superior for family use to the best oils.
May 22nd, 1865. TORRES & BARTON.

Italian Druggist opposite St. Domingo Church.
We have tried the Manteca de Grasa which has been sent to us and we have great pleasure in assuring you that we have found it of excellent taste and very convenient for family use, observing at the same time time that we have never allowed our cooks to use the grease commonly sold at the grocers' stores, but that we have had no reluctance to make use of your manufacture.
Buenos Ayres. 21st May, 1865.
A. DEMARCHI & BROS.

Cromwell Druggist, Calle Reconquista.
I certify that the Manteca de Grasa is a Grease which may be substituted with advantage to the best oils and hog's lard and even butter for family use as it has an agreeable smell and excellent taste.
May 22nd, 1865. CHARLES MURRAY.

Druggist of the Gold Condor, corner of Maypu and Corrientes Streets.
The undersigned certifies that the Manteca de Grasa recently introduced for kitchen use after trying it in several dishes at my house has been adopted on account of its healthy qualities and fine taste with preference to the French oil which has been employed up to the present.
I have also submitted it to a chemical analysis and I have not found any heterogeneous mixture on which account I consider it preferable to all the greases and oils up to the present.
May 22nd, 1865. LUIS SOARES.

Imperial Druggist, Corner of Calle Cuyo & Florida.
I am convinced that the Manteca de Grasa that you prepared is preferable to any other grease sold in the country and therefore very useful for family use. C. IMPERIAL.

Certificate of Dr. Toribio de Ayerza.
Dear Sir,
From its first appearance I have used in my house your Manteca de Grasa, and were it not superior to all those which are used in this city, you know I am sufficiently frank to call your attention to its defects, but as I have not found any I have now the pleasure of sending you my congratulations for the industrial advancement and real benefit which you have procured for the public, furnishing them with such a pure and agreeable condiment as the Manteca de Grasa.
Your most obedient servants,
TORIBIO DE AYERZA.

Certificate of Dr. John Leslie.
The undersigned has the pleasure to certify that the Manteca de Grasa sent me by Messrs. —— has all the physical qualities of pure grease and that it is consequently worthy of being recommended to families for their use.
JOHN LESLIE.

From the Medico-Quirurgical Review, May 23rd.
It is well known amongst us that there is a scandalous adulteration of the principal alimentary substances, and we have therefore great pleasure in seeing a grease offered for sale which, according to the medical certificate of Professor Puiggari which we reproduce, joins the excellent qualities of a fine smell, good taste, and purity, which highly recommends it.

Certificate of Dr. Carlos Ferrè.
Having practically convinced myself that the Grease which you have prepared is pure and of excellent taste, I shall have the greatest pleasure in recommending its use.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangello, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood

Buenos Ayres, September 19, 1863.

Pp. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p ☰) per anhum, which is liquidated ever six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

HEALTH, FOR THE INVALID
BY
HOLLOWAY'S PILLS.

LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.

The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.

Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.

FEMALE DISORDERS.

No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, as decisively as certain pills.

SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.

In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite, regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.

The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derangements, when asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elamination which no other medicines can so effectually perform as these purifying Pills, as they purify gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy and must be effectually rubbed twice a day into the suffering parts.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic-Douloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause.

N. B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.

Sold at the Establishment of Professor Holloway 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.
